Principal's Message

This yearbook is a chronicle of your activities and achievements this school year. Many of these you will remember fondly and cherish throughout your years. It is my hope for you that if in these activities, academic and extra-curricular, you have accepted the challenge of thinking clearly, logically, and objectively, and you have been able to avoid your own biases, and you have assumed a questioning approach to life, then you will have come a long way in fulfilling your role in society.

I am particularly proud of our student body and their efforts in working along with the Centennial students to bring about the reuniting of the South Windsor secondary school community in this next school year. The graduating students can feel satisfied that they have laid the foundation for another exciting school year to come.

With Mr. Price's move to Herman Secondary School next year, I send wishes for continued success, and extend a warm thank you for his successful and effective role in his years at this school.

Farewell Message

During my seven years at Massey I have seen many changes -- the four day cycle, final examination, recommendation, academic awards night, enriched programme, talent night, major theatrical productions, decreasing student population, movement of many teachers, repainting of the school.

There have, however, been many very significant constants which have blended with these to maintain the excellent educational environment that is associated with Massey -- teachers who found the "extra" time for students, the leadership supplied by the graduates, the varied activities organized by Student Government, the coaches and sponsor teachers who were always there, the continued support of the parents, and the annual publication of Pegasus.

Again, this year many students and staff brought recognition not only to themselves, but also to the school and community.

This edition of Pegasus will afford all of us the opportunity to look back over 1985-1986 with a sense of pride, accomplishment and self-esteem.

May all of you find success and happiness in your future.

Time

There is a time for everything,
and a season for every activity under heaven:
A time to be born and a time to die,
a time to plant and a time to uproot,
a time to kill and a time to heal,
a time to tear down and a time to build,
a time to weep and a time to laugh,
a time to mourn and a time to dance,
a time to scatter stones and a time to gather them,
a time to embrace and a time to refrain,
a time to search and a time to give up,
a time to keep and a time to throw away,
a time to tear and a time to mend,
a time to be silent and a time to speak,
a time for love and a time to hate,
a time for war and a time for peace.

Message from the Prime Minister

Throughout one's tenure at Massey a person isn't often given the chance at becoming Prime Minister and leading the school in the direction he/she wishes. The Prime Minister's job is to interpret the goals and ideas of the student body and formulate plans to achieve them. In some limited way I hope I have made these blue halls a better place for you to go to school.

Any achievement at all couldn't have happened without the most outstanding executive that I have ever seen at Massey. To Mark Jones, Sylvia Konyen, Allison Petley, Nancy Morgan, Cathy Siddall and Jennifer Jones my very sincere thanks and without their aid my sanity would have lessened severely. May you prosper as I have prospered in knowing you.

To the administration and staff advisors, Mr. Pocock, Mr. Borelli, and Mr. Gambriel, thank you for your co-operation and patience with us. Also my deepest gratitude to all those people who helped in running activities, organizations and the dances. May next year's PM be so lucky.

I, along with my executive, would like to thank you, the students, for allowing us to serve you. May future executives conduct the affairs of student council with as much dignity as we did. But I doubt they could have as much fun.
