## MR. KREWENCH

### PRINCIPAL'S MESSAGE

Once again the publication of the Pegasus signifies the climax of a very successful 1971-'72 school year at Vincent Massey Secondary School.

To the graduating class whose pictures appear in this year's edition: -

The greatest need of our graduates today is a sense of purpose. This sense of purpose is often lacking in the individual because it is sometimes lacking in our educational philosophy. The graduates must have realized their sense of purpose because they have not forgotten that they are heirs to a great Canadian tradition which regarded public education as our nation's greatest single asset and source of strength.

To those who remain and whose pictures appear in this year's edition: -

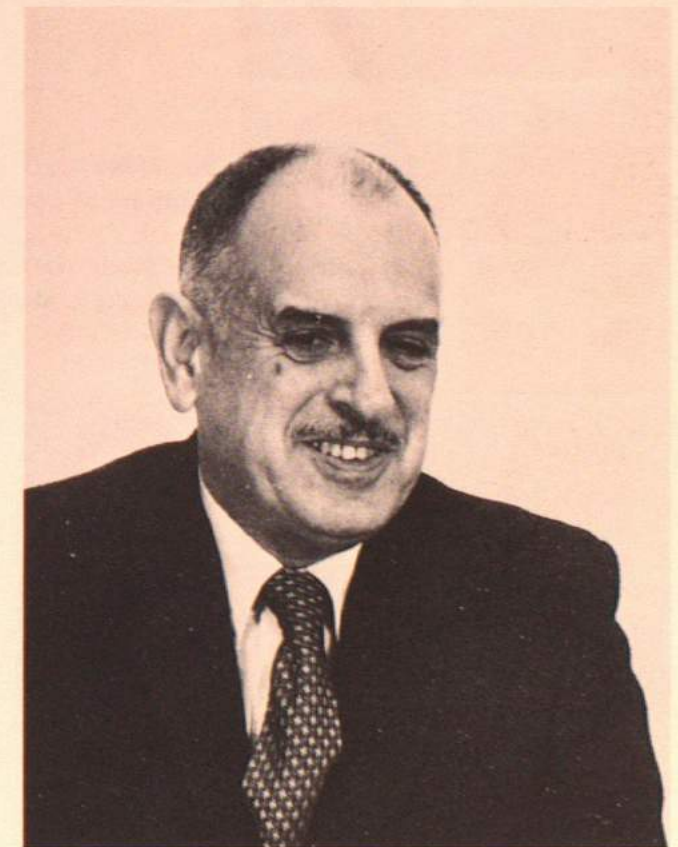

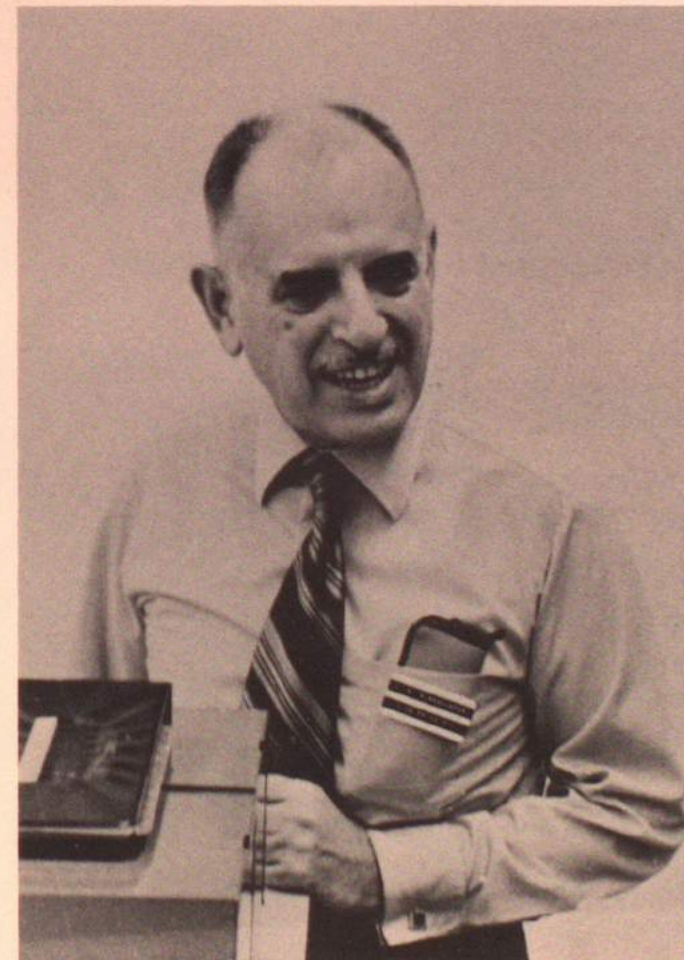

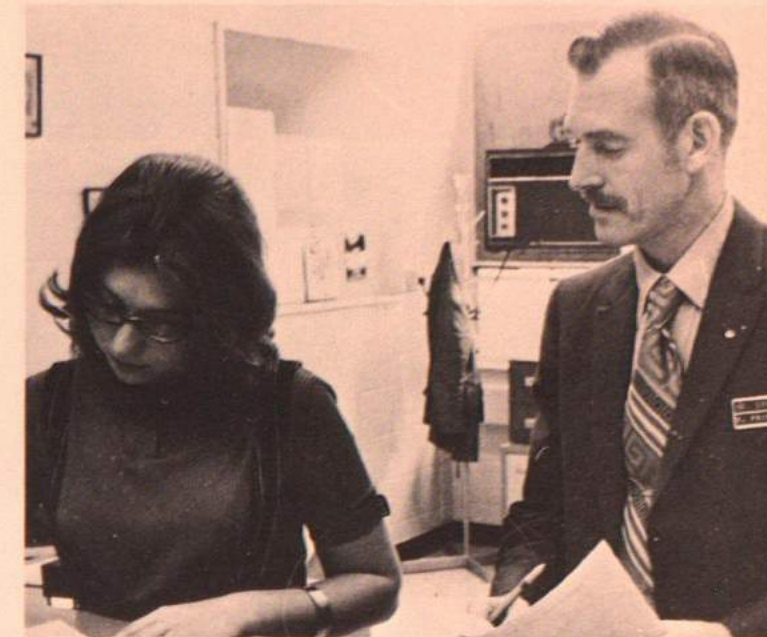

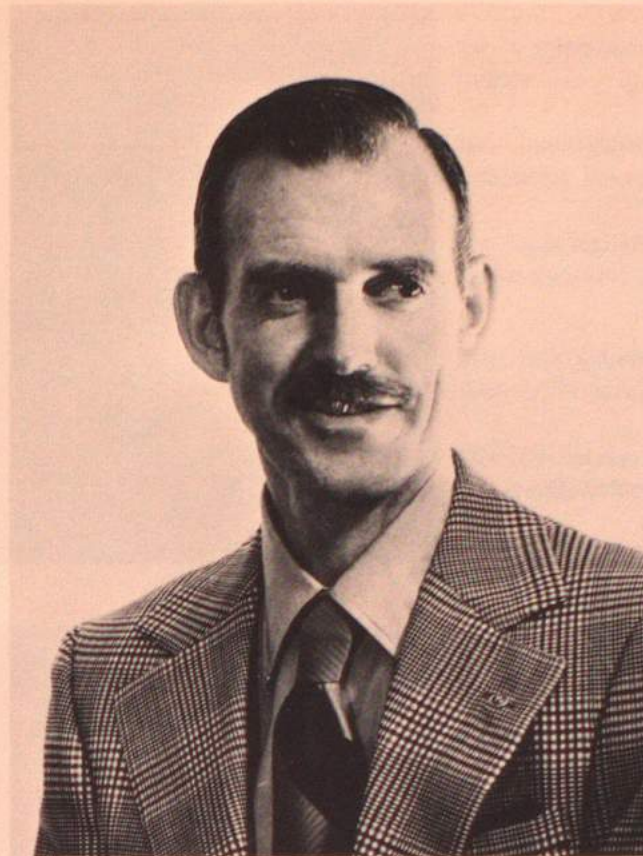

The school is the core where the essential ingredients are poured, shaped and produce the finished mould "Education". Students should be aware of the fact that "Education" is a continuing process and will never end provided the students keep wondering and constantly searching. To achieve this purpose good communication channels are necessary.

Pegasus '72 shall become a treasured keepsake and a lasting memory of all the members of the Massey society whose pictures appear in this edition. The editors and the staff of Pegasus '72 should also be congratulated for such a wonderful production.

"VINCENT MASSEY IS OUR SCHOOL"  
"LET'S KEEP IT THAT WAY"

S. Krewench  
Principal

## Senior Poetry — First

IN THE AREA

morning,

yearning for freedom,  
to communicate,  
to be with,  
    people  
    friends;

in the area  
    "got a smoke"  
    "only one"  
    C.J.O.M.,  
BLARING in the caf,  
    light up a smoke  
    only a half,  
smoke  
    smoke  
    smoke

morning announcement  
"and place garbage in proper receptacles"

soot belching out dirty incinerator,

choke  
choke  
choke

In the area,  
people talk  
in the caf,  
all kinds of rock

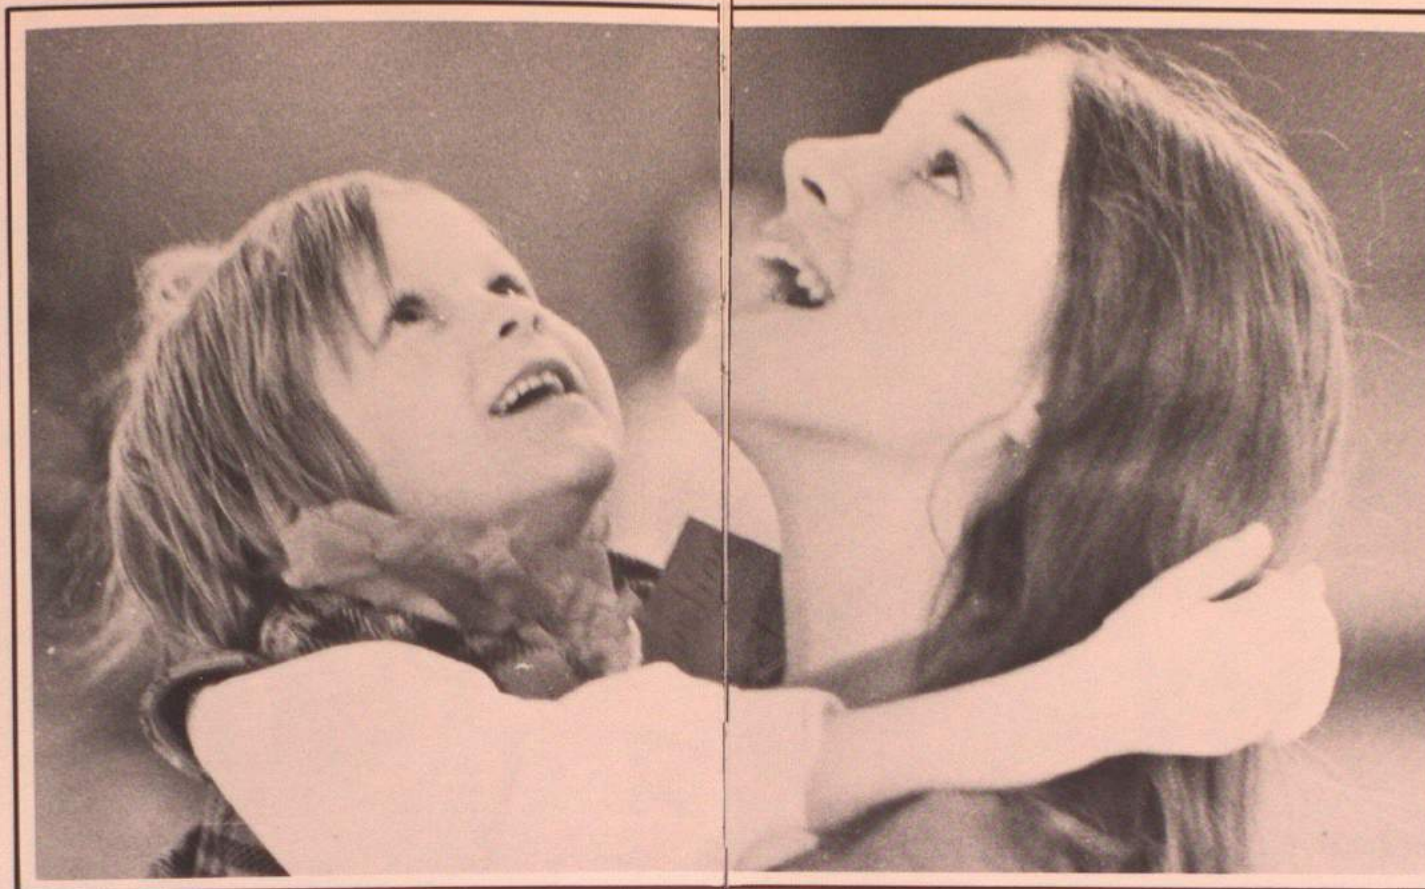

but in the class,  
you sit on your ass,  
waiting for,  
    dirty butt laden,  
    smoking area  
where people are people,

and  
nobody  
is  
a  
student,

but everybody has a smoke,  
a change of air  
from the soot laden air,

IN THE AREA

A LIFE

Life -

A new experience is about to begin  
Whether it lives up to all expecta-  
tions;

It must be:

The unknown with its endless bound-  
aries, must be overcome.  
And in its place,  
shall come knowledge.

Experience -

And with it comes the dawning  
of your new and wonderful world  
Bathe in its glory.

But be cautious,  
for things are not always  
what they are built up to be,  
And the human soul is breakable.

Deceit -

The stab in the back  
which is always unexpected.  
They did not mean it.

Return to the reality  
that never was, but will be  
for however short a time.  
It will be a long journey.

Confusion -

Your mind is troubled and at war,  
Soon the wall shall be built,  
And you shall have your peace.

You have your own world now,  
without deceit or hate.

Isn't it wonderful!  
Don't you feel lonely?

Age -

The unknown was overcome,  
And in its place,  
came Wisdom.

But of what good is this wisdom  
which takes a lifetime to  
acquire?

For hand in hand,  
comes Death.

### OBSERVATIONS

I wonder what it would be like to view  
all these people with their masks  
down caught in surprise, like a doe  
ready to dart from fright.  
To see them posed, ready to strike and not  
those faces that hide behind smiles.

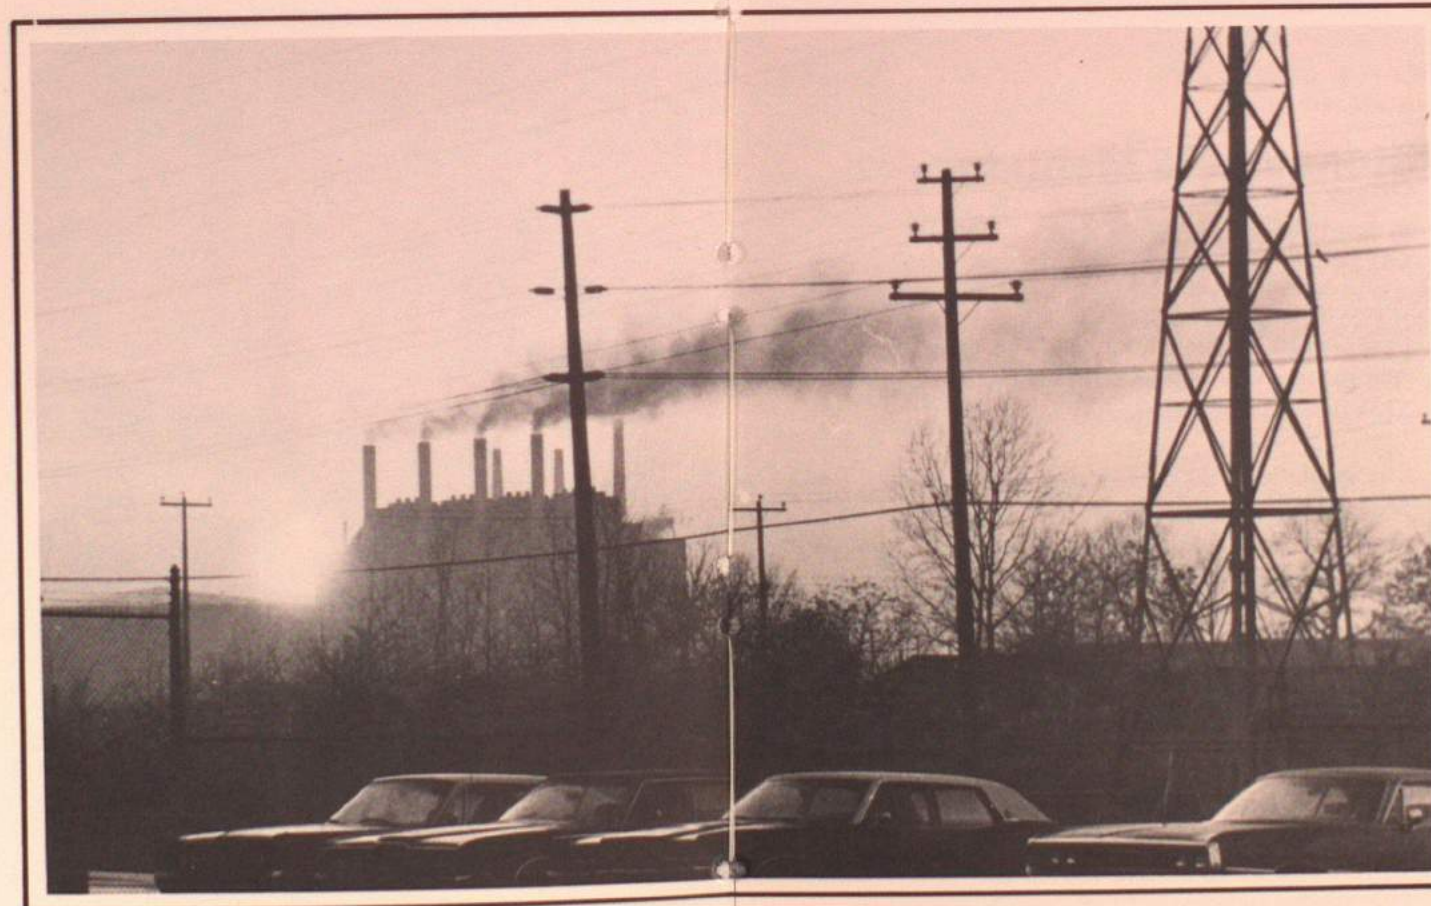

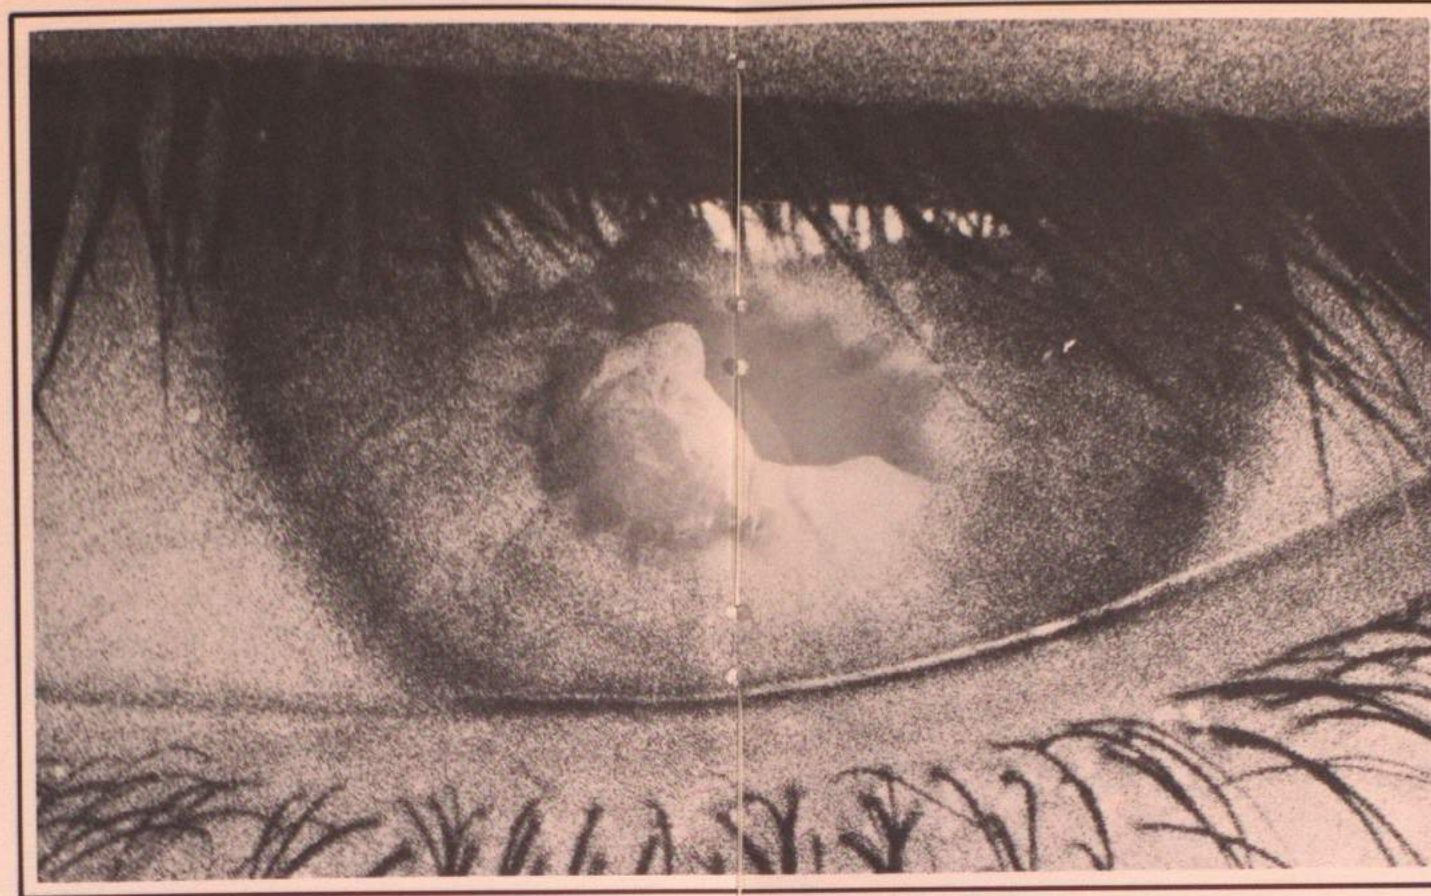

I wonder what it would be like to  
smell all the flowers, that would  
grow, if these people were not here.  
Or lie in the grass, where they lie now.

It must be nice to live in a shell  
and only let the sun through  
when the moon is bright enough.  
Careless they live in a jelly mould  
carved and perfect, they move to winds  
but never glide to easy breezes  
that lets them plant seeds in  
neighbouring yards.

Amused, that's what their lives are,  
corrupted by nothing but themselves  
alone. They sit watching endless lies  
and calmly they let their eyes drift.  
Soon their cares will be over and all  
the nights and days will be black.

The mask now hardened by age and rock  
slips from their forehead with easy grace.  
The smoke finally shedding its skin  
To show beneath a fluid and easy face  
But now it's left to rot with age  
And became the dust they lived to keep out.

--Debbie Harrison

## Junior Poetry — 2nd

As the sun ascends,  
High into the sky,  
It sheds a ghostly light  
Upon the things that men do try.

Around us is the product  
Of his stress and strain,  
All the things men do,  
To win an earthly gain.

Our waters that once ran,  
O, so pure and clear,  
Are now quite polluted  
And shall kill us all I fear.

The air that once smelled sweet  
With the dawn of a new-born day,  
Is now filled with the smoke  
From factories tall and gray.

Our high-ways and our by-ways  
Are covered with debris,  
By careless passers-by  
Who neglect to try and see.

It's all a part of progress,  
So the experts say,  
But surely there must be  
A much much better way.

To save our dying world  
People must show the way,  
So that future generations  
May see another day.

--June Angus

## Honourable Mention

To anyone who is listening  
I'm confused with this world,  
All the war and the hate  
mixed with brotherhood.

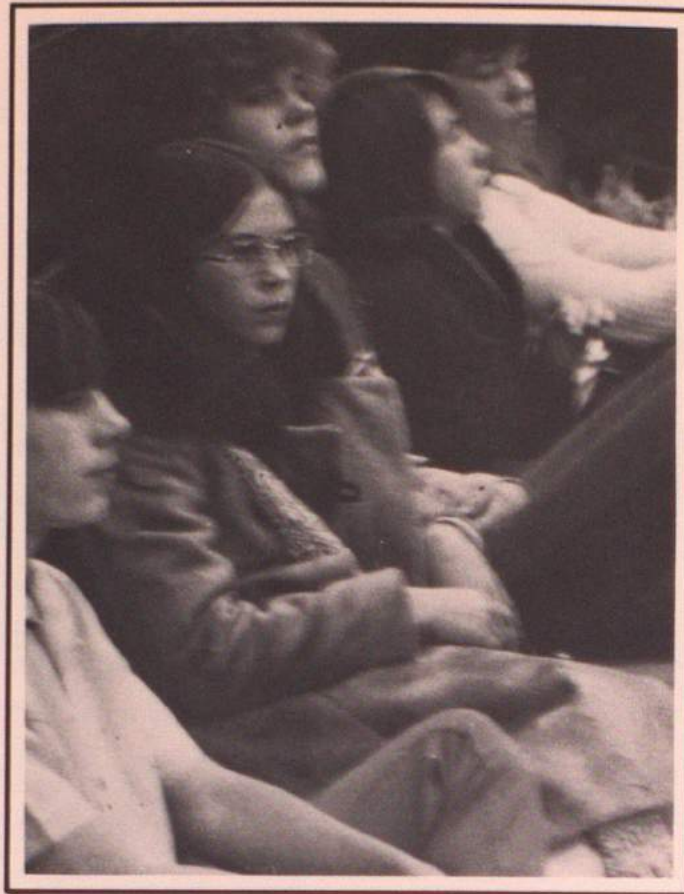

To anyone listening  
I'm afraid of this world  
What the outcome will be  
and our future.

To anyone who cares  
I care to help this world  
but to tell you the truth  
I don't know how,  
I guess I will wait with  
the rest of the world  
till the answer is given to me.

And if you're the one who stands alone  
whose different with a mind of your own,  
then it's your kind of people  
who will save the world  
and the people who really care.

To anybody really listening,  
Does anybody really care?

### MY TREE

It seems like just a day ago  
I sat beneath my tree  
And gazed above to branches high  
That grew so wild and free.

The supple branches frothed in green  
Reached menacing and high  
They looked as if they framed the world  
And fringed the bright blue sky.

But now I sit inside the house  
As winds blow cold and fierce  
And watch as nature's guiding hand  
Her beauty now does pierce.

Now in the place of bright green leaves  
Come jewels of reds and golds,  
My tree now seems to have the charm  
That autumn only holds.

### FIRST IMPRESSION

I shook his stuffed hand  
introducing myself by name  
His ice-berg teeth melted in warm breath,  
reaction  
His smile showed these cavern secrets  
Eyes like waterfalls of human marble  
Only monument's to God's eyeballs,  
I could have floated easy  
as a barrel shooter down those rapids  
And his ears were like miniature orchestra pits  
Tuning up or playing sweetly  
Whatever the audience wanted

His stuffed body shook in conversation  
Stuffed conversation at that  
He muttered stuffed sighs  
That floated like magnet balloons  
To my iron-heart sympathies  
And I shook his stuffed hand again.

## Coaches' Message

The desire to be champions begins as early as the completion of the previous football season and certainly no later than the first day of practice in September. The past season brought the Mustangs within eight points of being the best in Windsor. In one of the most exciting and well played contests of the past few seasons, our team lost a semi-final match to the Assumption squad by a score of 21-13. The game wasn't decided until the final minutes and our boys demonstrated to all that when you play together as a unit, great success is attainable.

Our season closed with a record of 5-2. Victories were scored against Centennial, Kennedy, Patterson and Forster (twice). The other loss also came at the hands of the Raiders, who stopped the Mustangs by scoring two touchdowns in the last two minutes of a regular season game and emerged 15-1 victors. Assumption went on to capture the W.S.S.A. title.

Our tri-captains this year were Bob Skinner, John Slack and Don Turner and they were responsible for organizing and maintaining the great team unity and spirit that Massey showed during the season. John Alexander played outstanding two-way football for the Blue and White all season and was selected to a second team ALL-CITY position. Randy Essery, Dave Meston and Mike Egypt also gained honourable mention to the select lists and are to be congratulated. Every member of the 1971 squad contributed a great deal to its success and it is impossible to name those responsible without naming each individual. We are fortunate to have many of these athletes returning next year and thinking of the championship has already begun for most of them.

## Coaches' Message

The "Champions" is the name of this year W.S.S.A. Jr. Football Kings. "Excitement" was their game. Hard fought games were their calling card. Coaches V. Radovich and T. Jakobszen had excellent young men to work with. The team went through an undefeated season against Forster, Centennial and Assumption beating Brennan for the title. Several individuals contributed greatly to the success of this team with such stalwarts as Tony Bell, Scott Mallender, Brian Meisner, Walt Costa, Mark DuFour and Mark Nantais. The team however had great assistance in achieving their goal from every member of the Jr. Football Champs of 1971-'72.

# EDITORIAL

A yearbook helps you to remember the things you have learned- to write, to speak, and to communicate in a hundred different ways. Communication is synonymous with living and your school lives are unmistakably important in helping you to develop and open wider communication channels.

Students often decide beforehand just what it is they want to remember about their past school year. However, the faces, the clubs, the activities, the sports, and autographed pages make them remember both the pleasant and the unpleasant occurrences.

A yearbook is not only a means of communication in itself, but it will help you to remember the people who touched your lives, if only for a few moments during the year.

We hope that the 1972 Pegasus will communicate with each and every student individually so that they may understand this school year and the people in it just a little better than before.
