Valedictorian's Address

If I had to define high school, let X be the variable. $X=1387$ days, $X=5562$ awkward moments, $X=499$ hours of procrastination, $X=44$ essays, 31 pointless assemblies, 15 dreadful All-nighters, and 4 years, $X=$ High school

Good Evening, friends, family, beloved Massey Staff and fellow graduates, today we celebrate an end to four years of blue and orange – an end to high school. However, today what we really celebrate is a final and glorious goodbye to tedious FSEs, poor Wi-Fi connection, the do not admit line, the pink sheet, the automated phone calls home and fans that simply do not work. Among these we also say goodbye to the friends who made every moment memorable, the teachers who taught us more than just curriculum and the events which gave us something to look forward to.

As I look out at all of your faces staring back at me only one thing comes to mind: change. While I was writing this speech I spent an embarrassing amount of time burying my face in old yearbooks. Now as I look at you, know that I am simultaneously comparing you to your grade 9 yearbook photo. But the changes we've made over the past four years are not limited to our physical appearances. Sure our hair may be longer or shorter, we may no longer have braces, or our skin may be clear but in all our time at 1800 Liberty Street we've also grown as essay writers, as athletes, as students and as leaders. We are not the same innocent children who walked into the humid and odor-filled halls on that first day of high school. We have suffered through awkward moments, hours of procrastination, multiple essays, and dreadful all-nighters, but we have survived. We have been changed by love, by loss, by friendship and by laughter. We have grown together to no longer be those naive and foolish children of September 2010, but to be the foolish adults of June 2014.

Dum Laboramus Prosumus. It's a phrase that surrounds Massey. If you look close enough you see it everywhere. They are the words which mark our ancient school crest. You may have spent the past four years unaware of them but trust me, yes, they have a meaning and yes, we do have a school crest. DUM LABORMUS PROSUMUS, is Latin meaning, "as long as we are working we are progressing." Now, I know it's not quite as cool a phrase as Hanukah Mata, but sometimes you gotta work with what you're given. I do believe these Latin words are as relevant to us as ever. They speak the truth of what it means to be a true Massey Mustang: work hard and you will go far. Although our times as Mustangs are coming to a close let us not forget the exceptional memories we've shared, the teachers who pushed us to work harder and the friends who supported us as we progressed. To our parents who were there every step of way, we often don't say it enough for there are no words to truly express our gratitude, other than thank you. There will never be another now or yesterday but there will always be another tomorrow so if we continue to use what we've learned here at Vincent Massey Secondary School we will make the most of today and work hard for tomorrow even after we graduate.

The word GRAD, funny enough is also Latin and means "to step". Right now at this seemingly endless Graduation ceremony that is precisely what we are here to do. Tonight as we are stepping forward to collect our diplomas we are also taking our first step towards our future. Now I know stepping forward can be a bit scary, we are going in new directions and stepping into uncharted waters, but I have some final words of wisdom. In the wise words of Mr. Gatt, "never underestimate the power of comfortable footwear."

The Terry Fox Run, Prom, All-Night Dance, Children's Christmas Party, Pep Rallies, the can drive, Multicultural Dinner, Semi-formal, the band trips, the Europe trip, Fashion Show, the championship games, the Weccesa, swossa and Ofssa titles and grad picnic are now nothing but endless memories of a jam-packed four years. As we gather here today, we say our final farewells to a school which offered us more than we deserved and more than we had time to do. Tonight we gather for the last time as Massey students and leave as Massey alumni.

So after four years, to some: $X=$ change, $X=$ marks the spot or, X is the letter before y . Yet, if there is one thing the Massey Math department has taught me it's that X is the unknown. X does not equal high school, for life continues after we leave these hallowed and steamy hallways. X is a fresh start and the unknown is what you make it. Congratulations Class of 2014 I encourage you to step forward towards your future and find your unknown.
