Administration

What an awesome year for the staff and students at Vincent Massey. It has once again been our pleasure and privilege to be the Administration of such an incredible school.

Massey never ceases to amaze us with its strong academic program and wide variety of extra-curricular activities.

What sets Massey apart from other schools, is the diversity, dedication, energy, and hard work of students and staff.

Finally, we would like to congratulate the graduates of 2015-2016. We wish you all the best as you go forth to an exciting and challenging future ahead. The lessons you learned as a Mustang will serve you well. We wish you success in your future studies.

We anticipate another great year with all of our returning students. It is sure to be another memorable one filled with Mustang pride.

Valedictorian Speech

By **Christopher Gregorian**

Good evening parents, teachers, administration, honourable guests, dishonourable guests, uninvited guests, and fellow graduates. Today we not only celebrate the past, but we look to the future and what comes. Four years ago, none of us knew what to expect when we walked in the doors. Massey was just a huge building with many times more students than any of the grade schools that we came from. Maybe you expected to get pushed into a locker. Maybe you expected your math teacher to throw chalk at you when you got a question wrong on the board. Maybe you expected everyone to spontaneously break into song and dance, High School Musical style. But I don't think any of us expected a bomb threat on our second day of class.

Massey's a pretty magical school, and I don't think there's any other school that comes close, except for maybe Hogwarts. Our library doesn't have a forbidden section, but we do have a librarian who rules with an iron fist. If you hear a disembodied voice in the hallway, it's not a ghost: it's just Mr. Coulter with his megaphone. And of course, the third floor is out of bounds to all but the most naive of grade nines.

But really, our experience is unique. There are so many different things that make Massey, Massey. Whether it's being able to see the smile on the kids' faces at the Children's Christmas Party, staying up all night during All Night Dance or MasseyHacks, or just having fun during grad picnic, the Terry Fox run or any of the other fantastic events our student council put on, they're all part of the Massey experience that makes me lucky and proud to say that I'm a Massey graduate.

And we have to thank our teachers for making Massey so great. They don't just come to school because they have to, but because they love their job. Their passion for teaching is why we have so many clubs and sports. Every extracurricular activity you've done over the past 4 years is thanks to a teacher who has gone above and beyond their job description to make a change in your life. As well, shout out to administration for keeping the school open and running, and a huge thank you to our parents for supporting us and putting up with us for our entire lives.

Lots of teachers have been telling us to "remember where we came from". As our paths diverge and we go our separate ways, it's hard not to think about all of the exciting things the future has to hold, but we have to remember all the great memories that we've made. Maybe it's the math test that you got a hundred percent on because you worked your butt off to deserve the mark. Maybe it was that one book you read in English that really just got you and understood your existential angst. Maybe it was placing at WECSAA, SWOSAA, or OFSAA and taking home a medal not just for yourself but for the school. Maybe it's the deep conversations that only happen after midnight on field trips. Or maybe it wasn't part of school at all. Maybe it's the friend you met at a party and got to know better than yourself in just a few hours. Maybe it's the vacation you took that opened up your eyes to the world around you. Every moment has brought you from the grade nine walking into your first period class to the grade twelve sitting here today.

While it may seem that a part of your life is ending, another part is just starting. Some of you are pursuing your dreams and going to work in September. Some of you are going to college or university, and might be sitting in another ceremony just like this as the class of 2020. You poor saps who are going to med school might just be the class of 2024. And of course, some of you might still have no idea what you want to do with your life, and that's okay too.

Don't be upset that the best four years of your life just ended. Instead, they might just be starting. That's all for today, Massey. Have a spectacular summer.
