Walkerville Collegiate Institute
2018 - 2019 Yearbook

Reflections of a year gone by.

Message from the Principal

Congratulations to Mrs. van Dijk, Carly Kelly and Elspeth McKay, Co-editors and the dedicated Yearbook Committee for bringing to life the story of Tartans 2019. As our motto says, "nil sine labore", which means "nothing without work", this yearbook has taken countless hours of work. On behalf of administration, staff and students, we appreciate the work you have done to create our yearbook.

Another amazing year is reflected in these pages. After 33 years in education, and my last Principal's Address in a yearbook, I know the importance of capturing these memories which you are able to look back on throughout your life. In addition to the courses you've taken, you will recall the clubs, athletics, artistic expressions, performances, trips, math contests, events, spirit weeks and of course, Coffee House. You will reminisce and smile about the times you've spent with friends and staff.

Congratulations also to our Class of 2019! As you take the next step, be confident that you are prepared to embrace the challenges and opportunities ahead. We look forward to hearing what the next chapter holds for you. Remember, you are forever a "Tartan" and a part of the WCI/WCCA family.

Message from the Prime Minister

Hey there, Tartans!

This emotional ride that we call a school year at Walkerville Collegiate Institute, has finally reached its end. Honestly, I had no idea what to write here to begin with. Do I go through our greatest accomplishments? Label our successes from our failures? Highlight the moments we wish we could remember most? It's all a little cheesy. All I can say for certain, is that this year has brought unexpected opportunities for each of us.

I hope this year has given you something to appreciate, to look back on and be grateful for. I'd like to thank Ms. George, Ms. Van Dijk, Mr. Benforte, Ms. Williams and Ms. Nantais for their continued support and encouragement throughout this year. I'd also like to give a big shoutout to Alex Vaupotic; that's MY deputy prime minister! Your kindness and dedication carries through all you do, and I'm so glad to have had you at my side.

To the rest of my devoted Agora members: thank you for all the work you've done. From planning grade nine orientation to our beloved coffee houses, gaming tournaments and can drive, your wonderful work has not gone unnoticed.

And with that, a fantastical era has come to an end. Remember that each of you are important to me, and as cliché as this sounds, you are the reason I wanted to run for prime minister. I want you to know that you matter; that you're worth it. I am honoured to have been involved with Walkerville to this extent, and therefore a part of your lives in some small way.

'til we meet again,

Kalie Chapman-Smith

GSA

Students for the GSA meet weekly and plan events that work to continue providing a safe space for all at our school. Once again, this year the GSA travelled to the University of Windsor to take part in a GSA conference where they took part in activities and listened to guest speakers.

Jack.org

Members for WCI Jack.org are young leaders working to identify and dismantle barriers to positive mental health in their communities. Jack.org is working towards a Canada where all young people understand how to take care of their own mental health and look out for each other. The students at Walkerville organized a Jack Talk for All, they also provided contact information for those needing support and provided support during exams including steps to keep stress at bay.

Announcements

Each morning the announcement team gives us the low down on the comings and goings of the Walkerville community. They report scores of games, give shout outs to students for their accomplishments and provide information necessary to keep in touch with what is happening at our school.

Left to Right: Ms. Crowley, Shylynne Hill, Kendra McGregor, Phoenicia Cassidy-Boulos, Éoin McCullough, Patrick Halligan, Aidan Robertson, Seamus Tokol, Stephen Halligan.

Tech Team

The tech team provides support for all events in our auditorium from shows, to assemblies to concerts they are behind the scenes making it work. This year the tech team was recognized for their expertise at the National Theatre School Drama Competition for their outstanding work.

Book Club

Not your average book club. Students are encouraged to read whatever interests them and share their love of reading with others. Librarian and English teacher Ms. Shantz is the teacher sponsor who shares her room and her love of books with students. Everyone is welcome!!!

The Loop

The Loop is a quiet space where students can learn to knit and/or crochet. Students are joined by staff every Wednesday to share their skills and maybe learn new ones. Many teachers work with students at the Loop including Ms. Sands, Ms. Aspinall, Ms. Rakic and on occasion Ms. Nelson.

These students have worked every Wednesday after school to design and edit pages of this book. This work has been tirelessly overseen by our two editors Carly Kelly and Elspeth McKay.

Yearbook Committee: Stephen Halligan, John Halligan, Patrick Halligan, Tara Laird, Dakota Friend

Camera Crew: Dakota Friend, Sarah Phillips, Cassidy James, Samrah Yohannes

Yearbook

Students in the Earthlinks club work to educate and enlighten students on how they impact their environment. This group tries to encourage proper recycling in our school and this year focused on ridding the school of plastic straws. Students this year also planted more trees for our school to enjoy. The teacher sponsors are Ms. Gorrick and Mr. Ferguson

Earthlinks

Pi Day

Again this year Ms. Aspinall and the Math department organized Pi Day. While the day focuses on students demonstrating their skill at reciting Pi to the most possible places the true point of the event is to encourage a love of math within our students.

EUCLID and GAUSS

Each year Mr. Cetra organizes for students the chance to write in provincial math competitions. This year over 20 students took part in the competitions. High scores were achieved by many and three students in particular were recognized, Grace Johnson, Ainnsey Russett and Spencer Pearson.

Best Buddies

Walkerville students in the Best Buddies program work with our S.T.E.P.S. students helping them form meaningful friendships with their peers, these students go on field trips and participate in activities together to ensure all of our students feel valued by society.

DELF Exam

The DELF and DALF are diplomas awarded by the French Ministry of Education to prove the French-language skills of non-French candidates. This year Ms. Jennings had 16 students take part in the testing: From left to right: Denica-Anne Moore, Jera Nolf, Flo Etienne, Tatum Roy, Majo Bogoevski, Hayden Couvillon, Miriam Elsawi, Elspeth McKay, Éoin McCullough, Maria Meer, Alex Banks, Sandra Jabbour, Estefani Rodriguez-Morales, Saxon Hubbert. Kneeling in front: Nisa Lyons, Makayla Morgan.

FIELD TRIPS

As a final activity in Ms. Cherry's World Religions class the group visits the Sikh Gurdwara. The class experienced Sikh culture, viewed a multi-religious ceremony, partook in a meal and finished with a turban wrapping. Thanks to Mr. Varnas and Mr. Singh for taking us on this journey.

The Long Point Provincial Park Camping trip is part of the experiential component for the Environment SHSM. Students camp for two nights and take advantage of the natural learning environment and take part in team building activities.

Students had a fun experiential field trip offered to all grade 9 science students to allow them the opportunity to gain some hands on experience in field work in the sciences. The students take part in many activities including water collection and testing and soil collection and testing, as well as a sense of what working in the environmental field would be like.

This year students were given the opportunity to travel to St. Clair College and see what they have to offer. Students interested in physics

SHSM

Specialist High Skills Major

An SHSM is a ministry-approved specialized program that allows grade 11 and 12 students to focus their learning on a specific sector while meeting the requirements to graduate from secondary school. It also provides them with experiential learning where they can have hands-on practice in work, university or college pathways.
